True Multitasking with a Seamless Dual Display

Multitask like a pro with the ROG ScreenPad Plus second display, with built in ScreenXpert UI, optimized apps, and touch support. Swap between active applications seamlessly with robust Windows support. The 4-directional hinge slides back as the screen rises with the lid, sitting flush with the main display at exactly 13° for excellent ergonomics.

Cooling You Can Feel, Not Hear, with AAS Plus 2.0

AAS Plus 2.0 opens up a 28.5mm air intake, increasing airflow by 30% compared to traditional designs. Conductonaut Extreme liquid metal allows for 15°C lower CPU temperatures compared to traditional thermal pastes. With this much thermal overhead, the Zephyrus Duo 16 can leverage 0db Ambient Cooling technology for truly silent operation during low power tasks.

Whisper Quiet Performance

ROG Flow Z13's ultra-compact form factor allows it to have more cooling space than traditional gaming laptops. Its tablet form factor does not require a hinge, allowing us to use much larger fans and a wider vapor chamber than the Z13's size would suggest. Combined with 0db technology, this means that the Z13 is completely silent during light computing, and remains incredibly quiet even under full load.

ROG XG MOBILE

More than Graphics. Less to Carry.

The 2022 ROG XG Mobile reinvents external graphics by combining performance and versatility with true portability. Despite being 7% of the size of typical eGPUs, this device harnesses up to a Radeon™ RX 6850M XT GPU. Our exclusive interface avoids common bottlenecks and adds dedicated bandwidth for an integrated I/O hub. The built-in adapter powers the eGPU and laptop so you can travel light.

*The XG Mobile must be connected to a power outlet to operate

330W
Adapter

Light Even Under Load

Despite delivering heavyweight gaming performance, the ROG XG Mobile is the lightest and most compact external GPU in the world. It's significantly smaller than competitors, at just 7% of the size of typical eGPUs built for desktop graphics cards. Weighing in at only 1.2kg, it's portable enough to pack up and plug in just about everywhere. The integrated 330W adapter even lets you travel without a separate power brick.

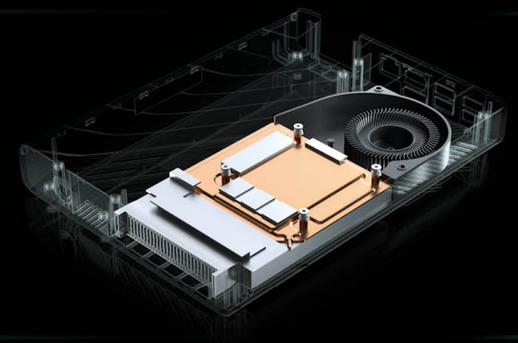

7%
Size of Normal eGPU

1.2kg
Weight

Beat the Heat

Advanced vapor chamber cooling keeps the ROG XG Mobile's graphics strong. Our custom design increases contact area with the heatsink by 54% compared to a typical heatpipe layout, enabling faster thermal transfer and opening up more space for airflow. Combined with the XG Mobile's space-saving standing design, this airflow-optimized cooling system enables more power in a super small form factor.

Dedicated
Vapor Chamber
Cooling Solution

Adapt to Anything

It's not just an eGPU; it's a fully-loaded I/O hub. Plug prime gaming accessories into 4 USB Type-A ports. Grab footage and photos fast with the SD reader. Massively expand your screen space across up to 4* displays with HDMI 2.1 and DisplayPort 1.4. Get online via 2.5G Gigabit Ethernet for low-latency multiplayer. And travel lighter with an integrated 280W adapter that powers the eGPU and laptop simultaneously. The XG Mobile takes a desktop-class experience wherever you go.

*Running 4 displays requires connecting 2 to the XG Mobile and 2 to the Flow X13.

ASUS TUF DASH F15

Dash into Action

Be bold. Do more on the move. The all-new 2022 TUF Dash F15 puts powerful Windows 11 Home gaming in a super slim chassis. Up to the latest 12th Gen Intel® Core™ i7-12650H CPU and up to GeForce RTX™ 3070 Laptop GPU make gaming smooth on up to a blazing fast FHD 144Hz display. Even at 19.95mm thin, this TUF chassis meets rigorous MIL-STD durability standards, resisting everyday knocks and bumps. 76Wh battery keeps you multitasking all day in a laptop light enough to carry anywhere.

Crystal Clear Visuals

Game at pro speed with a lightning fast IPS-level panel up to FHD 144Hz/3ms with 100% DCI-P3 coverage with 100% sRGB. With Adaptive-Sync, the display's refresh rate synchronizes with the GPU's frame rate to reduce lag, minimize stuttering, and eliminate visual tearing for ultra-smooth and immersive gameplay.

FHD 144Hz

Adaptive Sync Technology

On-the-go Versatility

The 19.95mm thin chassis don't compromise a classic TUF core that meets military-grade MIL-STD standards. Type-C charging lets you top off your battery from portable power packs, so you can stop scrambling for a socket when your battery gets low. Unplug and unwind with a 76Wh battery, and fast charging that gets you to 50% in only 30 minutes.

19.95mm Thin Chassis

Military Durability

Type-C Charging

Fast Charging Technology

Work and play flexibility

Ultrafast Thunderbolt™ 4 lets you connect conveniently on the fly to the latest devices, like external GPUs or docking stations. Advanced Two-Way AI Noise Cancellation lets you remove noise from both your own mic input and from incoming feeds. Fast and reliable WiFi 6 (802.11ax) ensures that you'll be able to get online and be productive.
