# Dell Optimizer for Precision

Where productivity meets intelligence.

## Personalized performance made for hybrid work

Dell Optimizer revolutionizes the way you work by fueling the world's most intelligent PCs\*.

It is the only AI-based optimization software that learns and responds to the way you work and designed to automatically improve application performance, battery run-time, audio settings and privacy – all in the background while you're working.

### Power to the creators

Dell Optimizer for Precision empowers high-end users with ExpressResponse6 for performance optimization of storage heavy apps. If you're a Precision user, you also have an exclusive Analytics feature for workload and system insights that help create personalized performance. You can also generate reports within Analytics to get system diagnostics and productivity gains.

### Intelligent privacy anywhere

Privacy and security are a major concern – help keep sensitive data private with the world's most comprehensive suite of Intelligent Privacy features1. Onlooker detection lets you texturize or turn on Safe Screen when an intruder is detected and Look Away Detect darkens the PC screen based on user behavior.

### Extended power

ExpressCharge analyzes your power usage habits to improve PC battery utilization. It extends run times and charges your system faster when you need a boost in power.

### Enhanced audio

Intelligent Audio delivers audio and mic enhancements and reduces background noise so you can fully engage in meetings with confidence, wherever you collaborate. Neural noise cancellation enables advanced artificial intelligent techniques to distinguish human speech from any unwanted noise.

### Faster sign-in

Get to work faster with ExpressSign-in2 – the proximity sensor detects your presence to wake on approach before Windows Hello logs you in via facial recognition.

### Unmatched connectivity

Optimized for the best connectivity, ExpressConnect3 provides the world's first simultaneous multi-network connection for faster data and video downloads4. It also enables joining the best network5 available and prioritizes traffic for conferencing apps, wherever you work.

### Improved app performance

ExpressResponse analyzes how you use your preferred apps to boost performance.

### Simplified manageability

Elevate work experience with an easy-to-manage application that provides a seamless experience for both end-users and IT decision makers. Set up individual features and modules from Dell Optimizer that fit your work environment with the modular installation feature. Deployment updates and optimization of multiple PCs remotely can be done simultaneously via centralized management.
