Introducing the Canyon Fortnax – the ultimate tool for gaming with precision and style. Engineered with a sleek and anatomic design, Fortnax features a convenient thumb rest for comfort and control during gameplay. This mouse is equipped with a powerful Sunplus 6662 optical sensor and offers unrivaled responsiveness.

With six sensitivity levels reaching an impressive 20000 DPI and a polling rate ranging from 125 Hz to 1000 Hz, Fortnax GM-636 allows you to fine-tune your settings for optimal performance. Take advantage of the nine programmable buttons to customize your experience and gain a competitive edge.

Built to withstand the demands of hardcore gaming, this mouse offers a lifespan of 5 million clicks. The enhanced RGB backlight features six dynamic modes, adding a vibrant touch to your setup. The 1.65m USB-A braided cable is rugged and reliable, while the lightweight construction at just 101g enhances maneuverability.

With Canyon Fortnax, precision meets power in the palm of your hand.

TECHNOLOGY

Equipped with a Sunplus 6662 optical sensor, Fortnax offers up to 20000 DPI and up to 1000 Hz of polling rate. It means your input lag will be only one millisecond, with enough sensitivity for any task.

DESIGN

Ergonomics is the cornerstone of this mouse's design, providing comfort for your hand and wrist. A convenient thumb rest was integrated to ensure a firm grip. Combined with an eye-catching multicolor backlight, this mouse looks almost like a spaceship.

ADJUSTABILITY

The DPI settings on the Fortnax range from 800 to 20000, with each level indicated by a distinct color. The polling rate can be adjusted across four steps, from 125 Hz to 1000 Hz. With nine customizable buttons, this mouse offers versatility to meet all your gaming requirements.

QUALITY

Fortnax is made of high-quality materials and components without cost-cutting compromises. Besides making it sturdy and pleasant to touch, we ensured the buttons can withstand up to 5 million clicks.
