Smoother, tear-free performance

Dell 24 240Hz Monitor

MODEL: SE2426HG

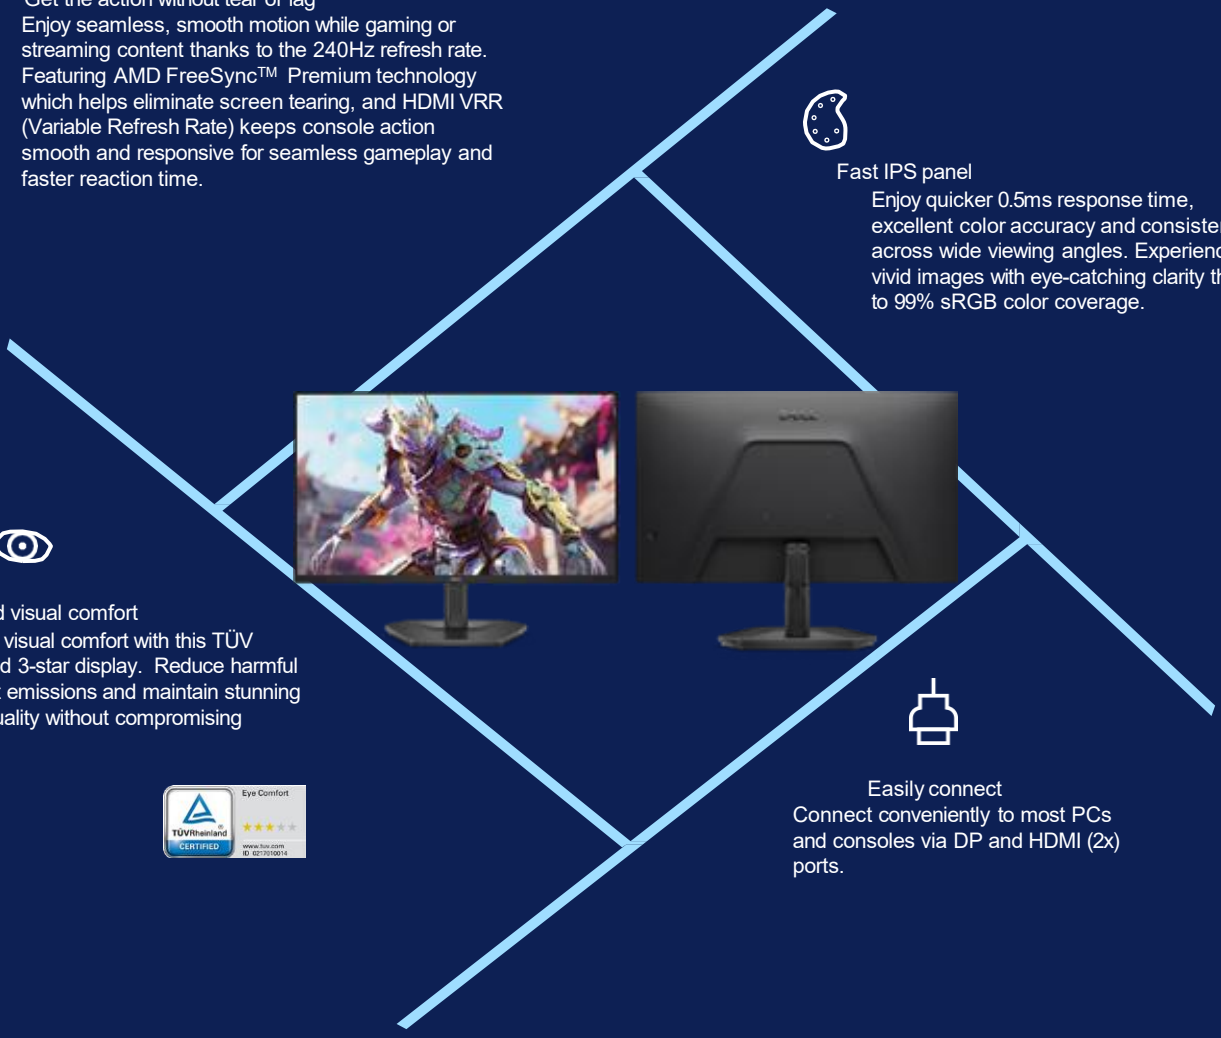

The world’s #1 monitor company*

* Dell monitors are #1 Worldwide for 11 years! Source: IDC Worldwide Quarterly PC Monitor Tracker, Q2 2025. From 2014 to 2024. CLM-013633

Perfect for all your entertainment and gaming, this 24-inch FHD monitor features a high 240Hz refresh rate, fast IPS panel, and is certified by TÜV Rheinland® for 3-star eye comfort.

Get the action without tear or lag
Enjoy seamless, smooth motion while gaming or streaming content thanks to the 240Hz refresh rate. Featuring AMD FreeSync™ Premium technology which helps eliminate screen tearing, and HDMI VRR (Variable Refresh Rate) keeps console action smooth and responsive for seamless gameplay and faster reaction time.

Fast IPS panel
Enjoy quicker 0.5ms response time, excellent color accuracy and consistency across wide viewing angles. Experience vivid images with eye-catching clarity thanks to 99% sRGB color coverage.

Improved visual comfort
Prioritize visual comfort with this TÜV Rheinland 3-star display. Reduce harmful blue light emissions and maintain stunning image quality without compromising colours.

Easily connect
Connect conveniently to most PCs and consoles via DP and HDMI (2x) ports.

Designed with Sustainability in mind

Intentional design in every part

At the heart of our design is a commitment to sustainability. That's why our monitor helps reduce waste with a design made from recycled materials with up to 95% post-consumer recycled plastic, up to 16% recycled steel and 20% recycled glass[1].

Seamlessly modernize your tech

We can help you responsibly and securely retire your legacy IT equipment, regardless of brand, while addressing your sustainability goals.

Packaging with purpose

This monitor ships in a box made from 100% recycled or renewable materials. We are reducing paper usage in monitors packaging, which is the equivalent to saving 545 trees annually[2].

1 Based on internal analysis, October 2025. Made with up to 95% post-consumer recycled plastic, up to 16% recycled steel in the monitor head and stand, and up to 20% recycled glass in the display.

2 Based on internal analysis, September 2025. Applies to all Dell monitors launched since 2023. Made from FSC mix sources which is a mix of material from FSC certified forests, recycled content and/or FSC controlled wood. January 2025, introduced cushions now made from corrugated materials. Paper reduction applies to all Monitors shipping in 2026. Reductions in paper usage in monitor packaging is attributed to the quick start guide size reduction and calibration sheet digitisation. Calculation for trees saved based on: Detailed Calculator | 10 THOUSAND TREES. https://www.omnicalculator.com/everyday-life/paper-weight.
